PROFESSIONAL SUMMARY

Aspiring Web Developer and recent IT graduate from St. Anthony's College. Proficient in building responsive web applications using HTML, CSS, JavaScript, PHP, and Python. Combines full-stack development skills with a strong focus on UI/UX design to create seamless client-side experiences. Eager to contribute technical expertise and collaborative problem-solving to a dynamic development team.

EDUCATION

Bachelor of Science in Information Technology

2022 – 2026

St. Anthony's College

San Jose de Buenavista, Antique

- Dean's Honor List, 1st – 2nd Semester, AY 2025-2026

PROJECTS

Literaria - An Interactive and Adaptive Reading Literacy Platform for Student Engagement and Comprehension *Capstone Project | Lead Developer*

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS, Flask (Python), Firebase, Google Cloud Platform APIs.

- Led the development of an adaptive literacy platform for improving reading engagement and comprehension among learners.
- Built the full-stack system using Flask, Firebase, and Tailwind CSS, including student and teacher modules. And Integrated Google Cloud Text-to-Speech (TTS) and Speech-to-Text (STT) APIs for AI-powered audio narration, pronunciation evaluation, and read-aloud functionality.
- Developed adaptive learning, gamification, and progress-tracking features to personalize student reading experiences.

Pathify

Hackathon Project | Backend Developer

Tech Stack: HTML, CSS, JavaScript, Flask, TensorFlow

- Implemented a multi-criteria decision-making engine using the TOPSIS algorithm to dynamically rank and match optimal healthcare providers based on user preferences.
- Built a custom weight matrices within the ranking model to evaluate complex criteria (specialties, experience, insurance) and developed a proximity logic that scored nearby locations fairly instead of using rigid binary filters.

SKILLS AND CAPABILITIES

Technical Skills: Programming, Web Development, UI/UX Design

Languages & Frameworks: Python, PHP, HTML, CSS JavaScript Tailwind CSS, Bootstrap, Flask

Databases & Cloud: MySQL, Firebase, Google Cloud Platform

Tools & Design: VS Code, Figma, Canva, Microsoft Software, Google Workspace

Soft Skills: Problem Solving and Critical Thinking, Teamwork and Collaboration, Communication, Adaptability, Project Management, Documentation
